

Gainsborough – Timber Portal Shed

MMCENGINEER LTD
Structural and Civil Engineers

Project Overview

Client:

Manufacturer:

[Farmplus](#)

Status:

On site now

Working with **Farmplus** (a leading Agricultural Timber Building Company) MMCENGINEER LTD engineered a timber framed portal shed with duo pitch design.

The Portal shed was designed to British Standards BS5268 for timber design and BS6399 for Wind and Imposed Loads. Constructed on a foundation of mass concrete pads. To be finished with Kooltherm External Wall Board with shiplat cladding to the outside.

The structure comprised of a main workshop with smaller subdivided stores and a boiler room. With typical bay widths of 4.572m

Engineered by MMCENGINEER LTD and manufactured and built by Farmplus to comply with UK Building Regulations.

Supplier of structural design services (Olympic Park) to the London 2012 Games

MMCENGINEER LTD.
